Problem – Solution Fit Template:

The Problem–Solution Fit demonstrates that you've clearly identified a core issue faced by your target users and designed a solution that addresses it meaningfully. This process bridges user needs with product design to ensure stronger adoption and real-world impact.

Purpose:

- ☐ Address the learning gaps of students through adaptive, AI-driven tutoring support.
- ☐ Accelerate learning outcomes by tailoring content to individual learner needs and pace.
- ☐ Integrate with existing Learning Management Systems (LMS) to streamline the educational experience.
- ☐ Leverage AI to provide 24/7 mentorship, personalized feedback, and content recommendations.
- ☐ Align product communication with student behaviours, ensuring higher engagement and satisfaction.
